“Always Learning, Always Growing, For the Glory of God”

Libertas Scholars is designed to educate and engage the whole scholar: mind, body, and soul. We recognize there is a unique calling on every life and take seriously the opportunity to shape a child for his or her vocation. We not only aim to equip students for academic success, but also to instill in them a life-long love of learning. Our goal is to teach through God’s word to enable students to flourish in life beyond the classroom.

Libertas Early Grammar (K-3)

In hopes of best serving our young learners in uncertain times we will be offering our traditional program in a new way. Our goal is to cultivate the love of learning in a classical manner while building a strong community of like-minded families. Although we do not feel equipped to ensure social distancing or hands and germs to ourselves in a classroom for the whole day in the current environment, we do feel certain that God has provided a wonderful curriculum, community and platform that will support you and your child as a homeschooling family in a virtual format. The new model for our GAP YEAR will include live on-line instruction, videos, lesson plans for parents to execute at home and offer a once a month Community Day for families to gather and have fellowship on campus.

The virtual program includes:

What to expect:

- **Weekly Emailed Lesson Plans for Claritas**
