Legacy for Christ is an organization in Central Florida committed to encouraging and training young speakers. Legacy's desire is to provide a safe environment to practice the skills of communication, recognizing that we are ambassadors for Jesus Christ and that we are seeking to represent Him to the best of our abilities. Legacy trains students to improve their skills in communication through club activities (such as apologetics and impromptu speaking), homework, speeches, debating, competitions, and speaking in the community. Legacy students are required to speak in the community and to participate in competition to help refine skills. The focus in the fall is on preparation for both community and competitive speaking. The focus in the spring turns to more competitive speaking.

Legacy for Christ members need to be affiliated with the NCFCA – the National Christian Forensics and Communications Association (www.NCFCA.org). This affiliation is the groundwork for the competition focus of our club. There are many benefits to students competing in speech and debate. Proverbs 27:17 reminds us: As iron sharpens iron, so one man sharpens another.
